

Portable Access Control Folding Gates

Finished Assembly

Tools Needed

Flathead Screwdriver

3/4" (19mm) Wrench or Socket

Parts Included

1/4" - 20 x 3/4" Carriage Bolt (5)

1/4" - 20 x 3/8" Round Head Bolt (3)

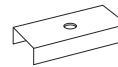

Washer (3)

Lock Washer (6)

Brace (6)

Support Brace (3)

1/4"-20 Nut (5)

1/2"-13 Nut (6)

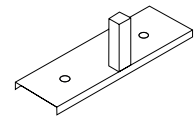

3" Caster (6)

Wall Locking Bar (2)

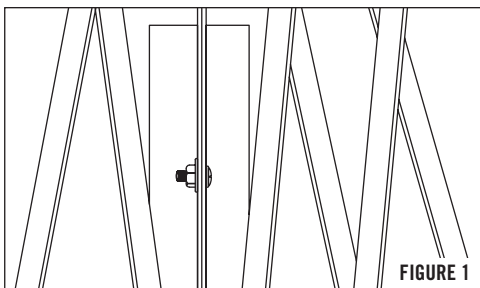

Axle (3)

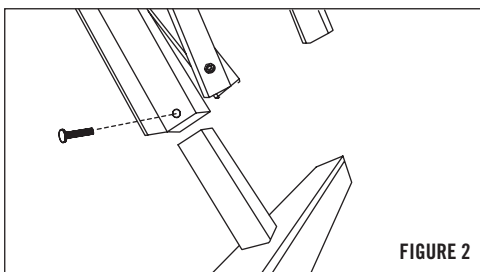

INSTALLATION INSTRUCTIONS

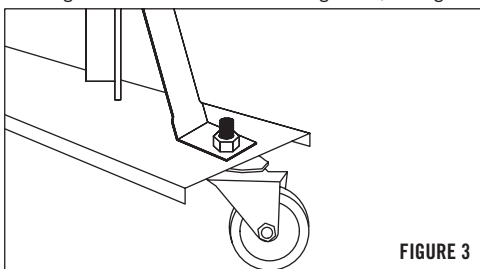

- 1) Bolt both sides of gate together at the top, middle and bottom by using the carriage bolts, washers and small nuts. (See Figure 1)

- 2) Insert each gate end into axle support. Insert round head bolt and tighten with screwdriver. (See Figure 2)

- 3) Attach casters to axle supports. Put caster through the brace and opening in the axle support and tighten with lock washer and large nut. Use a 3/4" wrench to tighten. (See Figure 3)

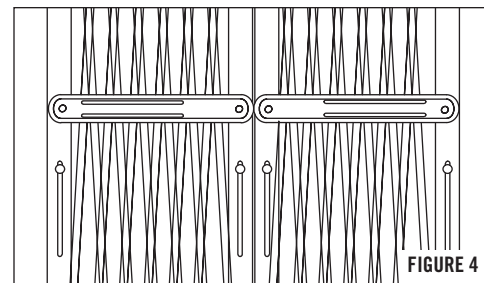

PORTABLE ADD-ON UNIT:

Repeat steps 1-3

TO MOVE GATE:

Collapse gate, lock axle locking bars into pins and roll to desired location. (See Figure 4)

TO MOUNT GATE:

Align padlock holes and mount wall locking bar to wall. (See Figure 5)
